

PITstop is an RCGP accredited course. What does that mean to me?

The RCGP Accreditation Mark is an identifiable symbol of quality assurance for educational activities. This benchmark of quality enables General Practitioners and other participants to identify high quality education relevant to their Continuing Professional Development (CPD), that also earns CPD credits.

The RCGP Accreditation Assessor Panel's comments about PITstop

The assessor panel were of the view that this is an excellent educational course highly relevant to CPD. The application and course content documents demonstrate a well referenced evidence base and excellent support materials. The Assessor Panel were pleased to accredit PITstop for Diabetes as it stands.

CPD credits (RCGP, 2016)

One credit = one hour of learning activity demonstrated by a reflective note on the lessons learned and any changes made.

As part of the supporting information, you should provide reflection on what has been learned from CPD, and how this has influenced practice. The process of reflection will allow the consideration of CPD activity to focus on learning outcomes, rather than on a consideration of time spent.

All learning experiences can appropriately be included as CPD, providing the CPD credits are demonstrated using the formula (above). You are encouraged to reflect on the impact of your learning. This includes the course itself, plus any Quality Improvement Activities (QIA) including service development, review of patient outcome data, reflective case reviews and clinical audits.

PITstop CPD credits

Number of taught hours = 17
